Learning Together, In Our Own Studios

November 2018 Project Fun With Stencils!

This month's project will be a combination of crafts! We are going to create our own paper stencils and then we will be learning techniques on how to apply our artful images to clay.

Before making our stencils, it seemed important to share how we will be using a stencil first ... so we can thoughtfully plan how best to use the paper stencils we design.

Making Spontaneous Stencils by Barbara Dinn

We are combining this "non-pottery" video to expand our thinking on how other crafts can play a role in our clay work. Barbara shows a variety of spontaneous stencils designs to get us started in personalizing our own clay pieces!

DIRECTIONS

1. Watch the video clips!

2. Decide on the aspects of the video YOU would like to use for your project

3. Share your progress and concluding explorations with the team! It would be great to see photos and videos of YOUR learning journey with this project!
